

Data Transparency Policy and Model Publication Scheme

May 2023 reviewed

Next review May 2024

1. Data Transparency

- 1.1 The Council has resolved to act in accordance with the Code of Recommended Practice for Local Authorities on Data Transparency. This sets out the key principles for local authorities in creating greater transparency through the publication of public data and is intended to help them meet obligations of the legislative framework concerning information.
- 1.2 “Public data” means the objective, factual data on which policy decisions are based and on which public services are assessed, or which is collected or generated in the course of public service delivery. The Code will therefore underpin the Council’s decision on the release of public data and ensure it is proactive in pursuing higher standards and responding to best practice as it develops.
- 1.3 The principles of the Code are:
 - (a) Demand led: new technologies and publication of data should support transparency and accountability.
 - (b) Open: the provision of public data will be integral to the Council’s engagement with residents so that it drives accountability to them.
 - (c) Timely: data will be published as soon as possible following production.

2. Model Publication Scheme

- 2.1 The Freedom of Information Act requires every public authority to have a publication scheme, approved by the Information Commissioner’s Office (ICO), and to publish information covered by the scheme.
- 2.2 The scheme must set out the Council’s commitment to make certain classes of information routinely available, such as policies and procedures, minutes of meetings, annual reports and financial information.
- 2.3 Every public authority must have a publication scheme, but the ICO has now created a model publication scheme that all public authorities must use. The Town Council’s Model Publication Scheme is attached to this policy.

Information available from Warminster Town Council under the model publication scheme @ May 2023
