SMARTEN-UP

Autumn Update

Join the Warminster Tidy-Up Smarten-Up Campaign...

This summer, Warminster Town Council in collaboration with Warminster Business Network, has been working hard to bring life back to the town. One of the schemes being offered gives local businesses the chance to request funding for shopfront improvements. So far, the response has been excellent. 10 businesses have been allocated a grant and several others are carrying out or pledging improvements. With several businesses giving their shop facades a much-needed refresh, a noticeable positive impact on the town centre's overall appearance is being created. These, together with new businesses opening their doors and other initiatives being undertaken to improve the overall aesthetics of the streetscene, these are all contributing towards Warminster becoming a more vibrant town. To keep the momentum going, we are excited to announce additional funding opportunities for businesses that wish to enhance their shopfronts.

Get Involved...

We're keen to see even more businesses join this effort. If you'd like to take advantage of the funding available, don't hesitate to contact Warminster Business Network for details.

Stay Connected...

We'd love to hear about the improvements you're planning to make. Keeping us updated not only helps us track our collective progress but also allows us to share your successes with the wider community.
