Monthly Talks at Warminster Civic Centre

28th Jan: Mars for a Future Generation

Over the past decades, humans have dreamed about visiting the red planet in person. But is that even possible? Would we truly be able to survive? In this talk, we discuss the real-life challenges that this poses and how current science and technology is hoping to overcome them. Join us to hear Jo Richardson from *Space Detectives* answer these questions and more. Space Detectives deliver new and innovative ways in Space Education workshops and presentations which quite literally transport the participant into an amazing technologically advanced "Space World".

TAKE THREE BOYS

A true story of the courage of Romanian orphans and their will to survive.

RITA TROTMAN

25th Feb: Whatever Happened to the Romanian Orphans

Rita Trotman went to Romania to help in an orphanage for an initial three-month period in 1991, but the work became so compulsive that she and her husband continue to run their charity for the lost children after thirty-four years. Much of that period was well-documented but very little is known about the adults they became, or what the future held for them. She will share her first-hand knowledge of the life the abandoned children now lead after the closure of the orphanages, and up to date news about their special project.

25th March: Warminster U3A AGM & Group Demonstrations Celebrating 25 Years of Fun

Join us for the Annual General Meeting of the Warminster where you will also be able to talk to many group leaders and see what their groups are doing. You will be surprised at how many groups we offer which cover a wide range of interesting subjects and discover something new.

Entry £4.00 including tea, coffee and biscuits!
